Cqurity Alert is an Intelligent Identification System to keep visitors and staff record with online personalized ID.

Cqurity Alert is one of the latest and user-friendly application software for online security with add-on feature of automatic Image and data transmission of visitors and staff.

It captures the photo of a person and the same will be transfers to the **Cqurity Alert Application** for collecting further information before generating Identity pass. The identity pass generates only when the permission granted by the concerned employee or authority, if he or she is available on seat or in the premises. When the security check received the confirmation, then the pass is send to printer.

Cqurity Alert is having extensive sections like secured Administrator, Query, Report, MIS, Photo Album, etc. with logical helps by which the concerned department should aware about the presence of various visitors in the premises during that day.

Such data with proper information is extremely helpful for any type of rescue operations, for investigation, and for intelligence activities in case of any incidents or accidents in the premises.

Cqurity Alert can also be attached with the biometric devices like Thumb or finger expression reader and smart card based devices
